ALL DAY WORKSHOPS,  
9:00 am – 4:00 pm (9:00 – 16:00)

PC1: Rethinking Childhood and Drama Therapy  
Phil Jones, PhD

This study day is for therapists whose work involves exploring clients’ childhoods as well as those working directly with children.

It will explore recent ideas emerging from the ‘new sociology of childhood’ and the child rights movement about child-adult power dynamics, childhood as a site of oppression and ideas of a cycle whereby adults use concepts such as ‘acting in the ‘best interests’ of a child to encourage children to experience themselves as incompetent and incapable.

Dr. Phil Jones’ recent publications Rethinking Childhood (2009 Continuum), Rethinking Children’s Rights (2010 with Welch, Continuum) and Pictures of Children (2007 Pearson) have explored new frameworks for engaging with childhood. These include ideas and practices that see children as active agents in their lives, as holders of rights and responsibilities and which address children in the here and now, rather than as future investments. This study day offers an opportunity to explore these areas of his work in relation to drama therapy.

The day will involve a presentation, discourse analysis of film and texts, drama activities and other group work. It will include time for peer support in building bridges between this exciting new area of thought and enquiry and individuals’ therapeutic practice.

PC2: The Group as the Consultant: Sociodrama Intensive

PC3: Who Holds the Stories? Odysseus and Penelope as Imagined by the Drama Therapist as Researcher  
Maria Hodermarska, MA, RDT, LCAT, CASAC, ICADAC  
Robert Landy, PhD, RDT/BCT, LCAT

“If the therapist’s journey is not the hero’s journey, then what is the narrative of the therapist?” This day-long workshop will use arts-based research processes to examine the drama therapeutic dialogue between client and therapist, Odysseus and Penelope.
Drama Therapy is comprised of interactive, improvisational, and embodied approaches that support individual and social change in clinical, educational, and community settings. This experiential workshop will introduce participants to the principles that guide the practice of Drama Therapy in North America as well as gain experience with three major approaches.
